10 AUGUST 19791. Security Organization Review Committee Report Submitted

The Deputy Director of Security, who chaired the 10 August Staff Meeting, announced that the Security Organization Review Committee Report has been submitted to the Director of Security for study by the front office. [REDACTED] advised that the Review Committee's conclusions and their implementation will be announced in the near future. He stated that some changes will occur shortly but that no major reorganization or extraordinary redistribution of functions is indicated. [REDACTED] also noted that many of the individual contributions to the study related to improved working conditions and enhanced efficiency. This second category has become a separate report to the Director of Security so that the review had a "double-barreled payoff." (C)
